

HP for Education 2020

HP LearnAbility

Equip students for learning at home.

HP LearnAbility is an innovative parental contribution programme for 1:1 computing for learning. It provides students with state-of-the-art learning devices that work seamlessly with the school's classroom technology and teaching methods.

With reduced risk and minimal administration for schools, together with affordability and peace of mind for parents, HP LearnAbility helps to ensure that all students are equipped for success - whether in the classroom or at home.

How does HP LearnAbility help **STUDENTS?**

Personal ownership of a device specifically designed for learning.

Portability rugged, sleek to carry devices for use at school and home.

Preparation for successful 21st century careers in science, technology, engineering, arts, and maths (STEAM).

How does HP LearnAbility help **SCHOOLS?**

Standardised devices making it easier for teachers to focus on teaching.

Resources no upfront costs and minimal admin allow stretched IT budgets to go further

Mitigate risks inclusive services and insurance mitigate risk and enable e-safety.

How does HP LearnAbility help **PARENTS?**
