

SMALL ROOM SOLUTIONS WITH RALLY BAR MINI AND TAP

- ✓ Studio-quality audio and video, motorized pan and tilt, and AI-driven performance, optimized for small rooms.
- ✓ Clutter-free cable management and multiple mounting options.
- ✓ Plug and play with virtually any PC or Mac®, or run supported video conferencing applications on the device without a computer.
- ✓ Enjoy one touch to join simplicity and wired or wireless sharing with the Logitech Tap touch controller.

MEETUP FOR SMALL ROOMS

Plug and play video bar for small meeting rooms.

MEETUP EXPANSION MIC

Add-on microphone with mute control to extend MeetUp's audio range.

MEETUP MIC EXTENSION CABLE

10 meter extension cable for Expansion Mic for MeetUp.

MEETUP TV MOUNT

Mounting option for MeetUp ConferenceCam.

RALLY CAMERA

Logitech Rally Camera provides the outstanding video quality and room coverage of the premium Rally Plus system, but packaged as the USB camera component for classrooms, multipurpose rooms, and other spaces with built-in audio systems. Equipped with an invertible wall mount and boasting expansive room coverage with automated PTZ, Rally Camera can capture an entire space in detail, while still offering the ability to focus on details—like the presenter, panelists, whiteboards or individual participants.
